

TPH CENTER OF EXCELLENCE **FIVE SEPARATING FACTORS**

SELECTIVE ENVIRONMENT

As the saying goes, “iron sharpens iron.” When driven, goal-oriented student-athletes *Study, Train and Play* with likeminded individuals, the development process is accelerated on the ice, in the weight room and in the classroom.

IDEAL BALANCE

The CoE provides an ideal balance athletically, academically and socially. Student-athletes aren't forced to choose between chasing their athletic and academic goals. Both goals can be pursued at the same time and the flexibility of the CoE model allows each and every individual to have a life outside of the rink and classroom.

EMPHASIS ON GROWTH

Making a positive impact on each and every individual is what drives all of our team members. There is no area more critical to growth than academics. TPH offers a fully individualized, customized academic learning platform through Edmentum. The TPH-Edmentum learning platform offers a “best of both worlds” scenario: on-site support from a full-time Director of Academics, along with an online curriculum that creates a blended learning environment.

INNOVATIVE ON AND OFF-ICE TRAINING METHODS

Our training methods have withstood the test of time, in that they are rooted in core principles that were popular 30 years ago and will be popular 30 years from now. At the same time, our training methods are cutting edge and have been born out of popular trends of the modern game.

MINI CAMPUS STYLE SETUP

Regardless of the physical setup, TPH seeks to create a mini college campus style setup that mirrors a university setting. The goal is for each individual to *Study, Train and Play* all in one day, like he/she would do as a college athlete...
